

KSPLICE60MM

Splice protection heat shrinks 60 mm

UNIK ✓

- ✓ Optimal protection
- ✓ Maintains optical properties
- ✓ Easy installation

THE PURPOSE

The UKN 60mm heat shrink splice protectors are designed to safeguard fibre optic splices by providing robust mechanical and environmental protection.

Featuring a clear heat-shrinkable tube with a reinforcing rod, they ensure the integrity of your network connections. The transparent sleeve allows for easy visual inspection before and after shrinking, while the low shrink temperature facilitates quick installation. Compatible with various fibre sizes and many leading splice trays and enclosures.

COMPLIANCE

Standard :

CIBSETM65

BELLCORE GR1380

ROHS compliant

BS2056 & BS302526

THE STRUCTURE

Length : 60mm

Tensile strength : 10.4 mpa

Diameter : 2.5mm

Operating temperature : -45°C up to +100°C

Materials : Stainless steel
