«Grid» 19-Inch Wall-Mounted Cabinet

UNIK

- ✓ Compact and Elegant
- ✓ Galvanized 19-inch Front and Rear Rails
- ✓ Top Brush Cable Entry
- ✓ Passive Ventilation

PURPOSE

The Unikkern “Grid” wall-mounted cabinet has been designed to meet the requirements of compact installations while ensuring performance, security, and aesthetics. Ideal for environments requiring a 19-inch wall-mount solution, it combines robustness, elegance, and integration simplicity.

Its 1.2 mm steel structure supports up to 60 kg of equipment, ensuring stability for even the most critical active or passive components. The front glass door with O-Lock ensures secure access while offering clear visibility of internal components.

A top cable entry with brush grommet facilitates cable routing while limiting dust accumulation. Its compact, refined design, paired with a black Epoxy powder coating (RAL 9005), allows seamless integration into any professional setting.

Removable side and rear panels, combined with 19” mounting rails and passive ventilation, ensure easy installation, convenient maintenance access, and optimal airflow to preserve equipment.

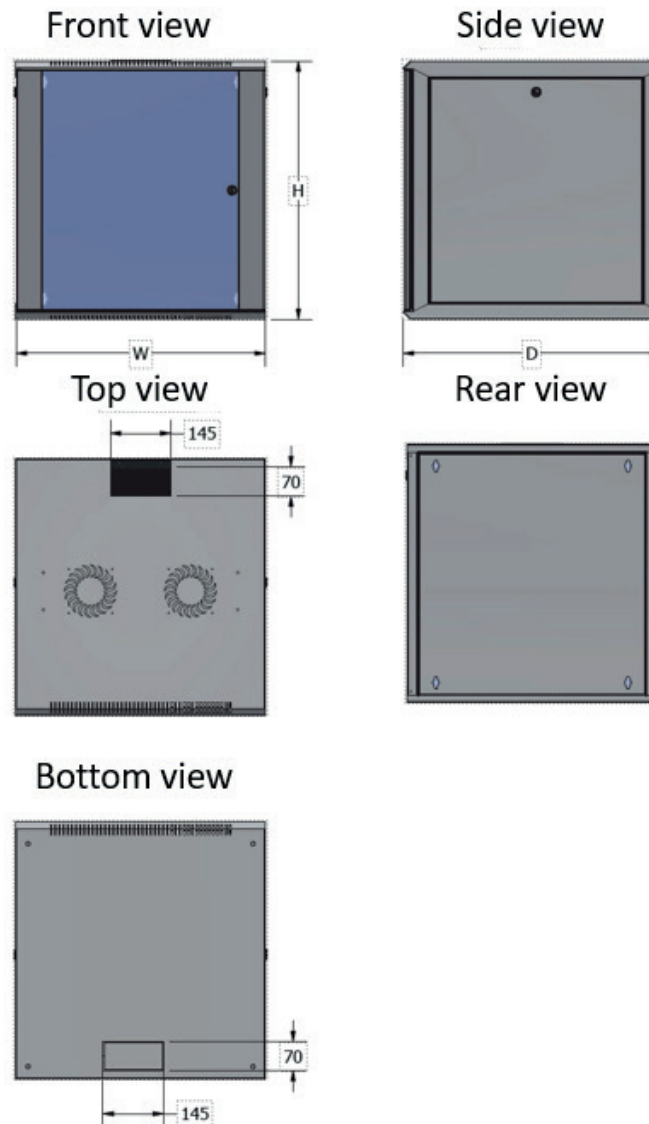

Available in several heights (from 6U to 22U), the “Grid” cabinet adapts perfectly to space constraints while ensuring efficient cable and component management.
